

# 120W 6 Ports USB-C Charger

## Charge 6 Sets Devices Simultaneously

- 6 ports: each with a maximum output power of 20W, can charge multiple devices simultaneously.
- Supports a maximum single-port output power of 100W, allowing for quick charging of high-power devices.
- Equipped with a switch design, making it easy for users to control the charger's usage.
- Can be wall-mounted, saving desktop space and making the office environment more tidy.
- Uses GaN (gallium nitride) material, which is smaller in size, more efficient in charging, and more environmentally friendly.
